## President's Letter

**Hello Everyone. I'm sorry to say that I still have no good news about any upcoming club activities. Hopefully we'll be able to be back to the good times soon.**

**As I previously advised the membership, two of our members died last month, Betty Monaci and Larry Currie. Our condolences and prayers go out to their families and loved ones. For me it was especially upsetting. They were not only fellow members, but personal friends. I'm sure many of you felt the same way.**

**On a happier note, Rachel and I are finally going on a RV trip, to see our daughter in Arkansas. We were going to go for Thanksgiving, as we did once before, but began thinking about how cold it was last time. We froze during the nights sleeping in our motorhome. And on our trip home it took 10 hours to go 100 miles through New Mexico because of the snow. A friendly reminder... the whole country isn't in the**

**perpetual heatwave that we seem to be in.**

**A little bit of club news. The Executive Board has decided that since the members did not get much for their money (i.e. dues) this year we will not charge membership dues for 2021. Everyone is automatically paid up for next year! And hopefully it will be a great club year.**

**Also, because we have not been able to get together to nominate, vote for, and install new officers for 2021, your current officers have agreed to maintain their present positions until we are able to get together again next year. Regardless, if anyone would like to be an officer of the club or on the board, even right now, we would welcome new board members.**

**Stay safe everybody and stay healthy.**

## Mechanic vs. Heart Surgeon

A Lexus mechanic was working on the engine of a LS460 when he spotted a well-known cardiac surgeon in his shop. The surgeon was there waiting for the service manager to come and take a look at his car when the mechanic shouted across the garage, "Hey Doc, want to take a look at this?"

The cardiac surgeon, a bit surprised, walked over to where the mechanic was working.

The mechanic straightened up, wiped his hands on a rag and asked, "So Doc, look at this engine. I opened its heart, took the valves out, repaired or replaced anything damaged, and then put everything back in, and when I finished, it worked just like new. So how is it that I make \$48,000 a year and you make \$1.7M when you and I are doing basically the same work.

The cardiac surgeon paused, leaned over and whispered to the mechanic..... "Try doing it with the engine running."
